

WAPPP

[Mobilizing Blended Finance for PPPs]

2025 theme for the World Association of PPP Units and Professionals (WAPPP)

# Main Goal

---

To promote the adoption and understanding of blended finance as an important approach to deliver PPPs.

## Objectives

1. **Promote** understanding and awareness of blended finance among stakeholders;
2. **Facilitate** knowledge sharing by exchanging case studies and worldwide experiences about blended finance in PPPs;
3. **Build** capacity of stakeholders to structure and implement blended finance projects;
4. **Encourage** collaboration and foster partnerships among stakeholders

# WAPPP's Initiative on Blended finance for PPP

---

Blended Finance refers to the deployment of concessional capital (public and philanthropic) alongside commercial capital in order to enhance the financial viability of projects that deliver public infrastructure and services.

WAPPP believes that blended finance can be an important tool to help mobilize private investment for environmentally- and socially-responsible PPP projects in developing countries, and is dedicating its efforts in 2025 to explore how blended finance can be utilized more effectively and efficiently in PPPs.

# Activities

---

1. Blended finance 101 - program launch;
2. Themed webinars with global partners;
3. Survey WAPPP members on the use of blended finance in PPP projects;
4. Papers, blogs and policy briefs on blended finance;
5. Working groups with PPP units, Infrastructure agencies and our partners.

# Webinars schedule

Topic	Tentative 2025 Dates
